

Trilogy Art Group Presents

Botanical Illustration

Interactive Watercolor Workshop Three Sessions with Fred Ventura

This workshop series introduces students to the basics of drawing and watercolor painting techniques, mixing colors and color application specific to botanical illustration. This class will emphasize how careful observation of a botanical subject can lead to improved drawings and more accurate paintings.

Live in the art studio, students will experience step-by-step demonstrations that allow for individual guidance and real-time interactions between the teacher and participants. The goal will be to complete three botanical illustrations: a rose, a mandevilla and a poppy.

Supply list and instructions for accessing course materials will be sent after payment for the class is received. Supplies not included. Questions should be addressed to Fred Ventura at fred@venturaes.com or (805) 709-2281.
